

## Course Coordinators

| Course Coordinators for A.Y. 2024-25 (I Semester) |             |                                        |                                |
|---------------------------------------------------|-------------|----------------------------------------|--------------------------------|
| S. No                                             | Year        | Name of the Course                     | Name of the Course Coordinator |
| 1.                                                | II B. Tech  | Electronic Devices and Circuits        | Mr. P. Ramesh Babu             |
| 2.                                                |             | Digital Circuits Design                | Mr. P. Hari Obulesu            |
| 3.                                                |             | Signal, Systems and Stochastic Process | Dr. G. Thirumalaiah            |
| 4.                                                | III B. Tech | VLSI Design                            | Mrs. Y. Sunanda                |
| 5.                                                |             | Control Systems                        | Mr. M. Ravi Kishore            |
| 6.                                                |             | Microprocessor and Interfacing         | Mr. R. Mahesh Kumar            |
| 7.                                                |             | Nano Electronics                       | Dr. S. Fayaz Begum             |
| 8.                                                |             | Introduction to Communication Systems  | Dr. K. Prasad                  |
| 9.                                                | IV B. Tech  | Satellite Communications               | Mrs. L. Siva Yamini            |
| 10.                                               |             | Digital Image Processing               | Mrs. M. Tejaswi                |
| 11.                                               |             | Wireless Communications & Networks     | Dr. K. Riyazuddin              |
| 12.                                               |             | Cellular and Mobile Communications     | Dr. C. Venkatesh               |
